AMMAR ALI

AI DATA ANNOTATION & EVALUATION SPECIALIST

Cairo, Egypt | 2007ammarkhaledali@gmail.com
linkedin.com/in/ammar-ali-6a572b383 | ammar-ali-ai.github.io/ammar-ali-portfolio/

PROFESSIONAL PROFILE

AI data annotation and evaluation professional with experience across Arabic and English text, image, audio, video, and search workflows. **Hands-on QA and contributor coordination** experience includes reviewer feedback, client calibrations, guideline training, root cause analysis (RCA), LLM response evaluation, Arabic localization, transcription, and content safety.

CORE EXPERTISE

AI data & evaluation | Text/image/video annotation, OCR, ASR and transcription, response ranking, search relevance, content moderation

Arabic language | Egyptian Arabic, Modern Standard Arabic (MSA), Gulf Arabic localization, prompt/response writing, linguistic evaluation

Quality & operations | Labeler/checker QA, RCA, team training, client calibration, error analysis, corrective feedback, stakeholder coordination

SELECTED PROFESSIONAL EXPERIENCE

QA Support | Arabic Quality & Team Coordination
TELUS Digital | Aug 2026 - Present | Remote

- Serve as a key Arabic-team contact for client stakeholders, Quality Managers, and Project Managers on quality issues and operational follow-up.
- Lead internal meetings and training sessions; clarify guidelines, answer contributor questions, and distribute consolidated client updates.
- Participate in client calibration sessions, review ambiguous cases, monitor contributor performance, and deliver targeted quality feedback.
- Conduct root cause analysis (RCA), document recurring errors, and coordinate corrective actions with project leadership.

Arabic ASR Quality Assurance & Team Coordinator
Agents Only Technologies | Jan 2026 - Sep 2026 | Remote

- QA-reviewed Arabic ASR labeling and checking tasks, flagged inconsistencies, and provided actionable feedback to contributors.
- Coordinated quality decisions and contributor follow-ups with Project Managers and Quality Managers; supported corrective actions.
- Resolved guideline questions, escalated edge cases, and communicated updates to help align the Arabic team.

Gulf Arabic Localization & Response Evaluator
Welocalize | Mar 2026 - Aug 2026 | Remote

- Compared and ranked Gulf Arabic responses for fluency, dialect fit, grammar, naturalness, punctuation, and formatting.
- Documented linguistic flaws, proposed accurate corrections, and justified response preferences against locale-specific criteria.

Egyptian Arabic & MSA Prompt Writer & Response Evaluator
Welocalize | Apr 2026 - Aug 2026 | Remote

- Created natural Arabic prompts, conversational follow-ups, responses, and reference-quality golden responses.
- Evaluated output clarity, linguistic quality, relevance, and contextual consistency across conversation turns.

AI Data Annotator & Multimodal Evaluator
TELUS Digital | Aug 2025 - May 2026 | Remote

- Assessed AI-generated responses, instruction adherence, and preference comparisons using project evaluation criteria.
- Reviewed transcription, audio, image, and video content against multimodal annotation and quality guidelines.

ADDITIONAL PROFESSIONAL & PROJECT-BASED EXPERIENCE

MERIDIAL MARKETPLACE, BY INVISIBLE | AI Personalization & Red Teaming Evaluator | Apr 2026 - Jul 2026

- Designed adversarial, multi-turn tests of personalized AI assistants for context misuse, potential leakage, and model behavior failures.

MERCOR | Workflow Writer | Generalist | Sep 2026 - Present

- Document structured digital tasks and multi-step workflows in an Apple Silicon macOS environment, following quality and review requirements.

MINDRIFT | Freelance Data Annotator & Evaluator | 2023 - Present (intermittent gigs)

- Completed short project assignments across text and image annotation, transcription, data classification, and content review.

OUTLIER | AI Trainer & LLM Evaluator | Apr 2026 - Sep 2026

- Rated model responses against rubrics, annotated output weaknesses, and recorded evidence-based quality judgments.

RWS | AI Data Annotator & Evaluator | Oct 2025 - Jul 2026

- Contributed to image annotation, transcription, data labeling, and guideline-based evaluation tasks.

TASKUS | Gaming Content Moderator | Trust & Safety | Jan 2026 - May 2026

- Classified gaming chat content for safety and policy compliance, considering conversational context and severity.

T-MAXX INTERNATIONAL | AI Agent & Digital Content Evaluator | Jan 2025 - Jan 2026

- Evaluated digital content and agent interactions; validated structured task data using spreadsheet workflows.

ONEFORMA | AI Response Evaluator & Speech Data Annotator | Mar 2025 - Dec 2025

- Ranked AI responses with written rationales and annotated audio using transcription, segmentation, and speaker labels.

ATLAS CAPTURE | Video Annotation & Temporal Segmentation Specialist | 2025 - 2026

- Segmented video footage into timed actions and wrote clear English descriptions of observed steps.

LIONBRIDGE | Search Relevance & Query Evaluator | Jan 2025 - Jul 2025

- Rated e-commerce query-result relevance, user intent, and ambiguous search matches against evaluation guidelines.

APPEN | Social Media & Search Relevance Evaluator | 2020 - 2024 (project-based)

- Reviewed social media content and rated search queries and results using relevance and quality criteria.

DATAFORCE | Arabic Content Writer | MSA | Feb 2026 - Apr 2026

- Created original Modern Standard Arabic stories and text following linguistic and editorial guidelines.

FLYRANK AI | Artificial Intelligence Intern | Jul 2026 - Oct 2026

- Completed self-paced learning assignments on practical AI tools, prompting, and structured workflows.

OTHER LANGUAGE DATA ASSIGNMENTS

Acolad: Arabic transcription and SuperAnnotate tasks. **Jeenie & Silencio:** Egyptian Arabic voice-data recording.

TOOLS & TECHNICAL SKILLS

Annotation & delivery | SuperAnnotate, project-specific annotation/review platforms, Excel, Google Sheets, Lark, Slack, Discord, Teams, Hubstaff

Technical | Python, Pandas, scikit-learn, FastAPI, Streamlit, Sentence Transformers; AWS SageMaker (training labs)

SELECTED TECHNICAL PROJECTS

AI CV Scanner & Job Matching | Semantic CV-to-job matching prototype using FastAPI, Streamlit, and Sentence Transformers.

LoRA vs QLoRA | Comparison of parameter-efficient LLM fine-tuning approaches and evaluated model outputs.

SilentBridge AI (in progress) | Video-based sign-language recognition and Arabic communication prototype.

EDUCATION & LANGUAGES

Education | The Egyptian E-Learning University (EELU), Faculty of Computers & Information Technology, 2026 - Present

Languages | Arabic (native Egyptian; MSA and Gulf Arabic evaluation experience); English (professional proficiency)
